Doug – We can defer it to the next meeting but I'm sure that the water districts will bring it up. However, I did ask Boufis to provide specifics and he has not done so. That may be enough to tell him that we can discuss next time when we have the facts in front of us. Jim H

Thoughts Jim.

Should we add it as an item for the next meeting based upon short notice?

Ed. We have discussed EPA's role and how it might evolve depending upon how the program proceeds at the site. If you would like to discuss further give me a call.

Doug

I am not prepared to engage in this topic.

It would help me and others understand if you could take a moment to explain what the EPA's role is in the state managed program.

Thank You
Ed Hannon

Also note that at the Saladino meeting last Friday, DEC received a request from the water districts that a discussion of payments for the public water supply contingency program be put on the agenda. The districts are interested in seeing if the process can be made more efficient, specifically with regards to speeding up payments.

So, we will add that to the agenda as well.

Ok

Will change the title of the meeting.

Importance: High

Thank you Doug.

Since the purpose and focus of these meetings is ground water I would like to suggest the following tweak:
NWIRP/Grumman Groundwater Quarterly Coordination Meeting.

We do have recent 1, 4 dioxane GW sampling data we could share.
It would be helpful if the water districts could share their 1, 4 D data as well.

Best Regards
Ed Hannon

How about going back to "NWIRP/Grumman Quarterly Coordination Meeting"?

I will change the agenda heading before sending out next week.

Also, yesterday I asked if you could discuss the 1,4, dioxane data. You agreed. Would you mind if I put that down as an agenda item after the DEC report out on the radium 226 and 228 sampling?

Thanks and have a good weekend.

Subject: RE: NWIRP Quarterly Meeting

Good Morning

I noticed the title of the next quarterly meeting scheduled for Thursday October 29th is the "NWIRP Quarterly Meeting". As you may recall under the Northrop Grumman OU2 Order on Consent NG committed to participating in OU2 TAC Meeting's for NG's role in OU2. Under that same Order NG prepared and submitted a plan for "Coordination with the US Navy on the development of a plan for RE 108 Hot Spot".

Previously these meetings were titled NWIRP-Grumman Quarterly meeting then NWIRP/Grumman Quarterly Coordination Meeting. The next meeting has been titled the "NWIRP Quarterly Meeting".

I would like to recommend to Lora and yourselves we change the title of these meetings to correctly reflect Northrop Grumman's participation and our satisfying our commitments under the OU2 Order.

Below is a title for your consideration:

- Quarterly NWIRP and Northrop Grumman OU2 Meeting

Your thoughts?

Thank You
Ed Hannon
Manager ESH&M
